

ALBION
W I N D O W S

Create your ideal home
Be inspired with **Albion Windows**

Craftsmanship with Care
from an established **Family Business**

Welcome to Albion Windows

Albion Windows design, manufacture, supply and install a range of double glazing windows, doors, conservatories and porches.

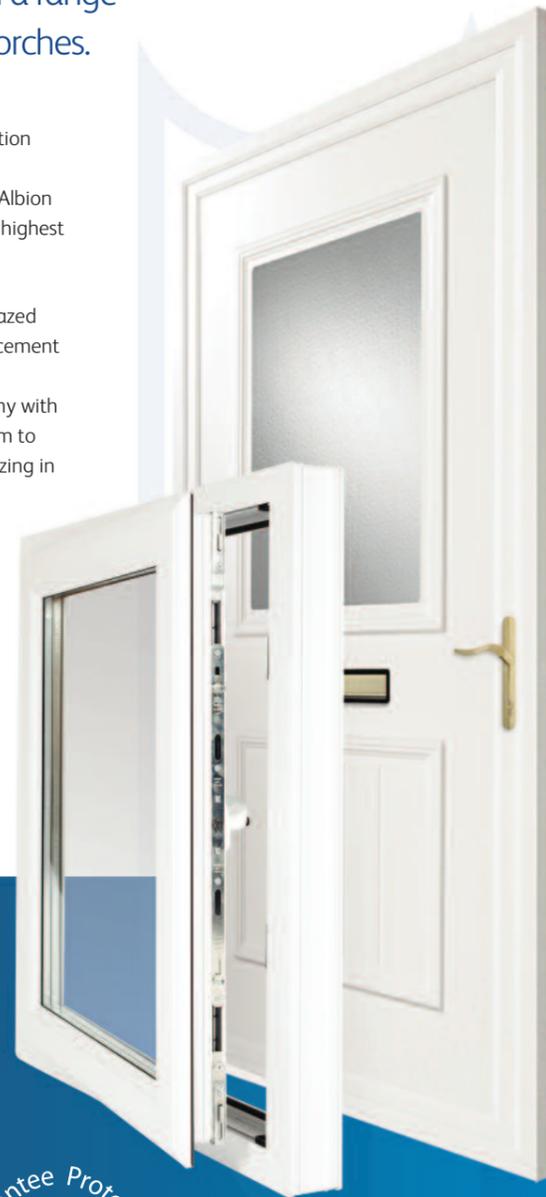

We are a family-run company, established in 1979, and based in Croydon, Surrey. We supply and fit to both domestic and commercial properties in Surrey, Sussex, Kent, London, Essex and Hampshire.

Each member of our specialist installation team has a minimum of five years' experience and work directly with the Albion ensuring continuity of service and the highest industry standard.

We provide double glazed replacement windows, doors and conservatories in and around Croydon built and designed by skilled craftsman and an installation team with years of proven industry experience. With the most robust customer charter for replacement windows in the industry, we always provide excellent customer service while supplying and installing the very best uPVC, Aluminium and wooden replacement windows.

We're passionate about our double glazed products and ensure that all our replacement windows are finished to the highest specifications and in complete harmony with the look and feel of your home. We aim to always offer the very finest double glazing in Croydon.

Craftsmanship with care
Highest quality competitive prices.

Our Company Ethics

We do not employ high-pressure sales people or sales managers, which allows us to keep our prices low, saving you money.

With our prices fully inclusive of VAT, survey, fitting costs, old product removal and making good, Albion Windows' products are a sound investment for your property.

We are members of FENSA, the industry standard for replacement windows and doors and have been approved by Croydon Trading Standards as members of its Croydon Builders Charter. We are also members of GGFI, a leading provider of Insurance Backed Guarantees for the home improvements industry. This ensures fair customer treatment is at the core of everything we do.

Unrivalled quality and excellent communication

Albion Window Company have now been established for over 32 years and have a team of dedicated staff who are here to assist you throughout your new home improvement purchase.

All customers of Albion windows can expect a pressure free, no obligation quotation, 10 Year Written Guarantee and full after sales and back-up service for that continued peace of mind.

All of our double and triple glazing windows and doors are manufactured to British Standard BS7412 and are available to Secure By Design specification. Additionally, all our installations comply with local authority building controls.

What makes us different?

We don't just service customers, we listen to our customers and this is at the heart of our company.

- Long established local company.
- Impartial knowledge & advice.
- Envious reputation in local community.
- Provide personal attention and great care in your home.

Window, door & conservatory solutions to create your ideal home

With our comprehensive range of high quality PVCu windows, doors and conservatories, you can be sure to find the products that will suit your individual style. With minimal maintenance, and maximum durability, they'll suit your lifestyle too.

Our years of industry experience and impressive credentials mean you can completely rely on us at every stage of the process, from selection to installation.

We offer the very latest energy efficient windows, doors and conservatories which will help you make savings on your energy bills and also help keep your home cooler in summer and warmer in winter.

From the moment you contact us, we will provide the highest quality service, helping you to choose the perfect product to complement your home and tailoring it precisely to your needs.

We'll help you choose the products - that are right for you

Safety and comfort for every generation

The latest technology

As well as adding to the look of your home, your doors and windows need to offer you protection – both from unwanted visitors and the elements. State-of-the-art door and window locking systems to enhance your home's security and give you extra peace of mind. Products manufactured using the very latest technology, so you can feel safe, secure and comfortable, whatever the time of year.

The look to meet your every need

We'll help you select the products that are right for your home – whether you're looking for a simple, elegant style, or a more ornate design, with decorative glass, panels or hardware.

Whatever you go for, our doors and windows not only look fantastic, they last for years. So as well as enhancing your environment, you'll be adding value to your home.

The best performing windows and doors that money can buy

We all want the best from replacement double glazing. That's why our windows stand apart. From styling to performance to saving energy, the advanced design gives you a comfortable, secure, energy-efficient home. Choosing our windows could not only save money from day one, but reduce condensation and noise pollution too.

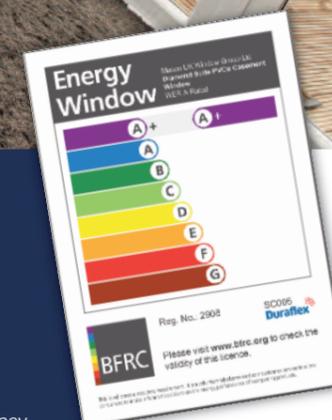

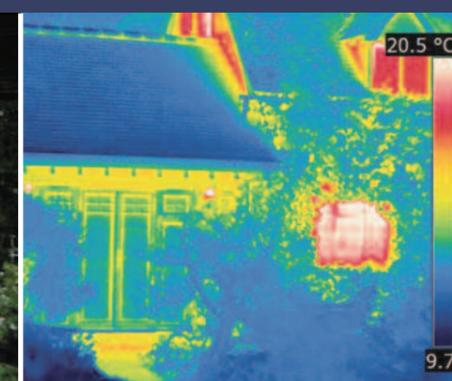

Energy efficient windows – at the right price

Our energy efficient window system brings together market leading components to deliver exceptional performance. This means quality performing glass and the best performing 'warm edge' spacer technology is used in the sealed unit. Our window profiles include Q-Lon weather seals, multi chamber construction, high security locking and stainless steel hinges.

Our windows make more of ambient heat

In winter, the energy efficient coated glass used in our windows retains warmth within the home. It's also designed to exploit radiant heat energy from the sun. These properties result in significant fuel savings compared to a single glazed dwelling.

Below: The images show just how effective fitting energy efficient windows to your property can be. The right hand side of the property still has the original windows – the reds and pinks show heat escaping. However, the new extension on the left is fitted with energy efficient windows, the lack of reds and pinks proving they help dramatically reduce heat loss.

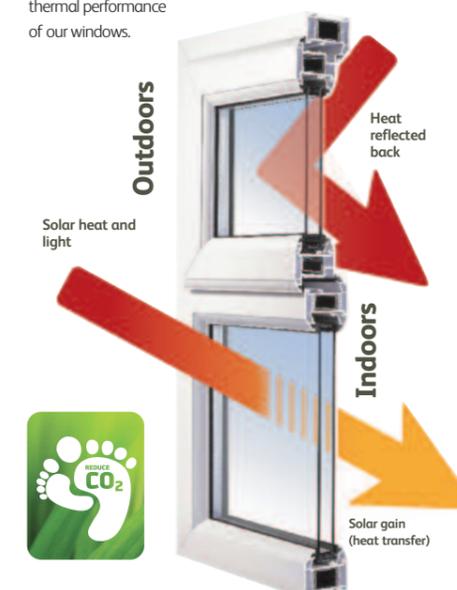

All our Energy Efficient windows achieve A rated as standard, providing you with energy efficient, high performance products everytime.

Solar gain, free heat

Our energy efficient windows are manufactured using the latest technology in glass and spacer units.

This allows heat generated from your home to be reflected back into the room but also trap free heat from the sun through solar gain, thus maximising the thermal performance of our windows.

Door & window security

– intelligent thinking for you

Windows and doors are at the heart of your security, and we design our products to ensure that visitors to your home are only the welcome ones.

Doors

Not only do all our doors meet industry standards, but we also work closely with the police under the 'Secured by Design' scheme to make sure our customers enjoy the best possible protection and peace of mind.

So, whether it's our security hinges or our state of the art locking system, our dedication to security is second to none.

The key benefits

- 10 point locking system for maximum security and peace of mind.
- 4 pre-compression rollers allowing door to seal prior to hooks engaging for smooth operation.
- 3 opposing steel hooks to maximise strength.
- 2 anti-lift bolts preventing door lock being dislodged from keeps.
- 1 centre latch for ease of day to day operation, incorporating dead-lock action when bolts and locks are engaged for added security.

Windows

Our Sac shootbolt locking system is specially designed to improve security and performance. It also takes pressure away from the hinges, ensuring a longer life for your windows. The tight seal guarantees superb weather protection too, so you'll feel safe and secure in every way.

The key benefits

- 8 Point locking system with unique corner drive design on all windows regardless of size.
- Unique full depth Eurogroove lock-out design to maximise security performance.
- 400% more shootbolt contact area with keep when compared to traditional flat shootbolts.
- Supaglide gear box action, tested to 100,000 cycles (equivalent to 30 years of heavy use).
- Rigorously tested to BS7950 and beyond to achieve Secured by Design status.

Finishes & Glazing

– make a difference to your home

An exciting range of finishes, a vast array of glazing options and door furniture to suit every taste. The choice is yours - make a design statement.

Finish options

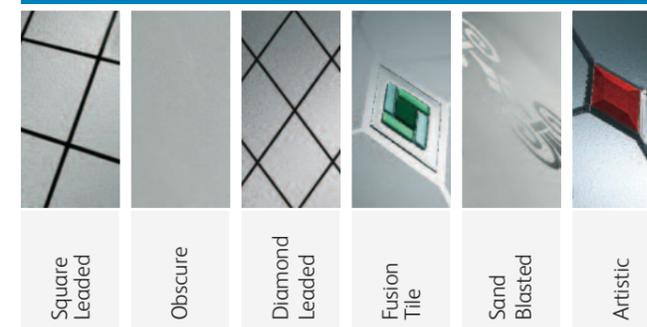

The range is available in variety of finishes including white, rosewood, golden oak and a range of solid colours, all can be combined with your choice of glass design, including Georgian square, stained or diamond lead.

The right window can make all the difference to a room, so it's important for it to look the part – and be reliable and cost-effective, too.

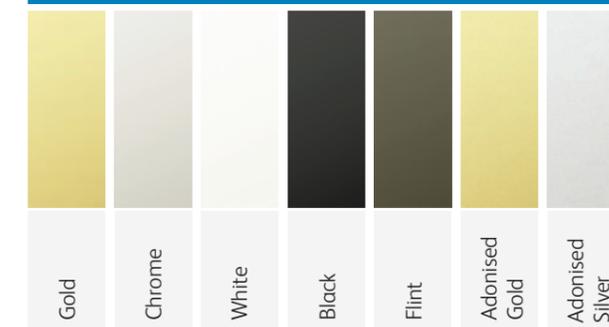

Glazing

A vast array of glazing options are available, eg. Patterned, Georgian, Stained and Leaded.

Furniture

An attractive range of door furniture is available in a range of finishes.

Colours are representative and may vary. Please see material swatch for actual colour.

Specification may change without notice.

Choose both attractive & durable Windows

New windows can enhance the look of your home, both from the inside and out. We offer a wide range of styles to suit all types of properties.

Opt for traditional white frames, or a natural woodgrain effect in golden oak, rosewood or mahogany. Then decide if you'd like Georgian, stained, diamond lead or bevelled glass.

Whatever style you go for, you'll find our windows aren't just pleasing on the eye, they're practical too. Minimal maintenance means their good looks will last well into the future.

Save money and cut wasted home energy by up to 20%

If your windows consist of single glazed or older double glazed units, replacement with energy efficient windows will save you money. It can cut the energy you need to heat or cool your home by up to 20%. You could also:

- Reduce condensation in your home
- Reduce your carbon footprint
- Reduce your energy bills
- Add value to your property

Reduce condensation in your home by up to 80%

Whenever we cook, bathe or even breathe, we increase water vapour in our home. When saturated air contacts a cold surface, condensation forms, promoting bacterial growth and mould. Both can compound respiratory problems such as asthma.

Our windows are typically 3-4°C warmer than those with metal spacer bars, reducing condensation by up to 80%.

Reduce outside noise levels with our state-of-the-art windows and doors

Nowadays it's difficult to avoid external noise.

Whether you live near a major road, under a flight path or near some vocal wildlife, noise pollution can be a cause of major disruption.

With double-glazed insulation and our high performance window seals, our energy efficient windows will help reduce external noise pollution.

Design options

It's the detail that counts. Make your mark with our design options - creating your own individual style.

Georgian Bar

This style option allows you to tailor your window glazing to create a personal finish for your home. This is achieved by inserting a shaped bar in between the glass panes.

Astrical Bar

Similar to Georgian bars but offers a more traditional finish by planting shaped bars on top of the glass panes thus creating depth to the design and the look of individual glass units.

Mock Horn

Our Mock Horn feature enhances the aesthetics of your windows by achieving the appearance of a traditional vertical slider.

Sight lines

It's the detail that counts. Make your mark with our design options - creating your own individual style.

Equal sight lines

As shown in the image to the left - a more traditional look is achieved by designing your windows with equal width frames ensuring a balanced and equal sightline across all glass units. This applies both horizontally and vertically.

Unequal sight lines

As shown in the image to the right - having opening sashes in certain areas of the window creates an unequal glass sightline between the sash and the fixed light.

Casement

Our range of casement windows is our most popular design, offering security, energy efficiency and is available in a multitude of styles and finishes to enhance the look of your home.

Whatever style you go for, you'll find our casement windows aren't just pleasing on the eye, they're practical too. Minimal maintenance means their good looks will last well into the future.

Features and benefits

All our casement windows feature energy efficient glazing and our unique high performing Q-Lon weatherseal ensures your windows will perform year after year.

Other key options include:

- Extensive choice of designs (see Design Options page).
- Available in a variety of foiled finishes, both woodgrain and solid colours.
- Range of handle colours to complement the finish of your windows.
- Wide range of glass designs, from leaded to Georgian bars.

Flexible yet simple

A common and versatile product available in a multitude of styles and finishes with either top or side hung sashes.

Tilt & Turn

The Tilt and Turn window is a truly versatile product, offering both aesthetic and practical options. This design of window is available in a number of style options, all allowing larger opening areas to be achieved, thus this product can be used for fire escape openings.

Versatile and convenient

Tilt and turn allows you to tilt the window inwards, for ventilation, or alternatively open fully inwards which allows for easier cleaning. Furthermore, this product can also be incorporated within bay and bow style windows and is available with a variety of glazing options, including Georgian bar, leaded lights and obscure glass.

Other key options include:

- Extensive choice of designs (see Design Options page).
- Available in a variety of foiled finishes, both woodgrain and solid colours.
- Range of handle colours to complement the finish of your windows.
- Wide range of glass designs, from leaded to Georgian bars.

Tilt state

Handle turns 180° to open the window in the Tilt action state.

Turn state

Handle turns 90° to open the window in the Turn action state.

Vertical Slider

The vertical sliding sash window range combines the elegance of traditional sash windows with the benefits of modern materials. Manufactured from PVCu they are strong, will not rot, warp or require repainting; ensuring that they retain their colour and shape throughout the years with the minimum amount of maintenance.

Features and benefits

Suitable for both replacing existing timber sliders in period buildings and adding character to any development, vertical sliders retain all the traditional features of their familiar counterpart but with the enhanced benefits that modern PVCu systems provide.

Other key options include;

- Extensive choice of designs (see Design Options page).
- Available in a variety of foiled finishes, both woodgrain and solid colours.
- Range of handle colours to complement the finish of your windows.
- Wide range of glass designs, from leaded to Georgian bars.

Multiple opening styles

With up to 8 different opening positions our vertical sliders enable you to easily control airflow into your home as well as allow you to easily clean them from inside your home.

Mock Horn Moulding

Tilt Catch (allows window to tilt)

Restrictor Arm to stop window falling open

Mock Horn Continuous

Sash Pull Handle

Centre Locking Catch in Chrome

Bays

Attractive, durable and versatile, our bays and bows will suit any style of property and provide valuable extra space in your home.

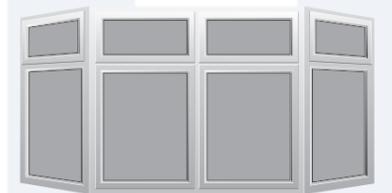

Features and benefits

Bay windows retain the traditional look of your home creating space, character and allowing light to flood your room.

Other key options include;

- Extensive choice of designs (see Design Options page).
- Available in a variety of foiled finishes, both woodgrain and solid colours.
- Range of handle colours to complement the finish of your windows.
- Wide range of glass designs, from leaded to Georgian bars.

Choose attractive, durable and weather resistant windows that complement the rest of your home

Curved or Squared

Extends from the house in a contouring shape with the outer walls either in existence or purposely built, creating additional space inside the house.

A door range

- to enhance the look of your home

Combining high quality materials with first class performance and security - you can be assured our doors will give you peace of mind and an individual look to suit your home.

The right front door can create a great first impression when you enter your property. Patio, French-style, bi-fold doors are a great way to open up a room – and invite the outside in.

We offer all these options in a wide range of finishes – from PVCu doors to composite ones, from simple glazed designs to more ornate styles, with decorative glass or panelling.

As well as being beautifully made, each door is designed to stand the test of time. So they not only work superbly as a barrier, they also enhance your home too.

Your new door options

It's the detail that counts. Make your mark with our design options - creating your own individual style.

Foils & Glazing

A vast array of door finishes and glazing options are available. Let us help you through the selection process.

Letterbox & Handles

An attractive range of door furniture in a range of colours to suit your preferred style or personal taste.

Lettering & Knockers

- Available in a variety of foiled finishes, both woodgrain and solid colours.
- Range of handle colours to complement the finish of your windows.
- Wide range of design options.

A range of doors in styles and colours to suit every taste

Stable

Combining traditional looks and operation with high performance and security, ensuring your home not only looks good but provides high performance year on year. A range of bottom panel designs and various glass types ensure you can tailor your door to give the individual look to suit your home.

Made of PVC construction, combining versatility in design with modern locking technology. Available to open inwards or outwards. A variety of styles are available which includes side light options. A variety of panel styles are also available which includes many glass types. Furthermore, various solid colour and woodgrain finishes are available.

Features and benefits

- High performance weathering with Q-Lon weatherseal.
- Available in a variety of foiled finishes, both woodgrain and solid colours.
- Range of handle colours to complement the finish of your windows.
- Wide range of design options.

Traditional yet modern

Our stable door allows you to enjoy the benefits of modern performance with traditional aesthetics.

French

Throw open French doors and invite the garden, terrace, balcony or country views inside. A breath of fresh air for your kitchen, lounge or dining room, these beautifully made doors come in a range of styles, colours and finishes to blend naturally with any home.

Our French door allows you to enjoy the benefits of modern performance with high security, advanced weather and energy performance combined to ensure our products are built to last the test of time.

Features and benefits

- High performance weathering with Q-Lon weatherseal.
- Available in a variety of foiled finishes, both woodgrain and solid colours.
- Range of handle colours to complement the finish of your windows.
- Wide range of design options.

Versatility to enjoy the outdoors

Available to open inwards or outwards. A variety of styles are available which can include midrails, French doors can also be designed with side panels to span larger openings.

Patio

Practical and robust, Patio doors slide to open up your home to the garden, bringing it closer to the house to use like another room. With easy access in summer and a wonderful view in winter, a patio door adds light and air to life – all year round.

In-line PVC patio doors are ideal when opening area is at a premium as the sashes do not encroach into the surrounding space. Available in 2, 3 and 4 pane options, patio doors can even be supplied with a midrail to include a letterplate if required.

Features and benefits

- High performance weathering with Q-Lon weatherseal.
- Available in a variety of foiled finishes, both woodgrain and solid colours.
- Range of handle colours to complement the finish of your windows.
- Wide range of design options.

Smooth and secure operation

Our patio doors ensure smooth operation along with improved security with our 8 point locking system which is available on all door options.

Bi-fold

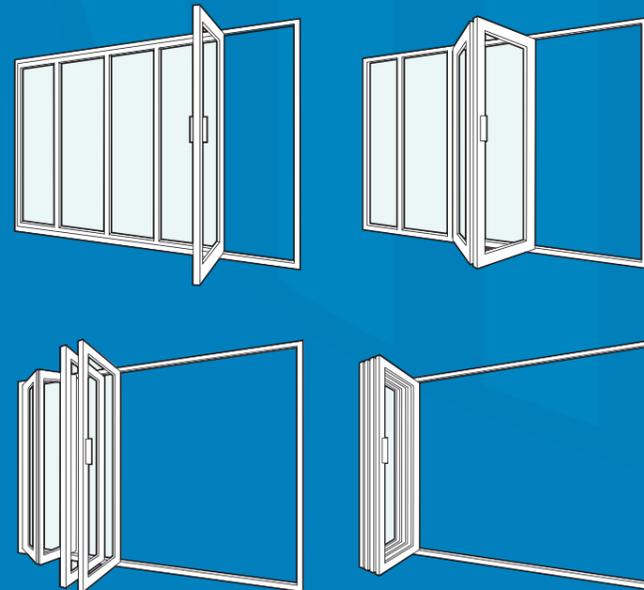

Innovative and visually stunning - connect inside living to the outside world.

Bi-fold doors create a whole new feel for your home, linking rooms together and seamlessly joining inside living with outside space. Versatile and aesthetically pleasing, bi-fold doors are the ideal replacement for existing patio or French doors to flood any room with natural light.

Amazingly flexible and versatile, bi-fold doors can be fully opened, partially opened or totally closed, depending on the amount of space available.

Features and benefits

- Slimline Aluminium
- High performance weathering
- Broad range of door configurations
- Choose from 2 to 6 door panels
- Internally beaded.

Clean integrated design

The unique design of our bi-fold door means both cill and track are incorporated into the threshold, which results in a reduced frame height for improved aesthetics and a smoother operation of opening and closing.

Porch

You can really create the finishing touch to your home or commercial building by creating an inviting entrance and adding extra space. With the help of our professional team you can design the perfect porch for your period or contemporary property.

We will help you identify your homes unique characteristics and assist you in creating a porch that is in-keeping with your home, or maybe something completely unique. We will take care of everything from base building and brickwork through to door fitting, windows, decorative panels and roof. We will match your existing brickwork and finish with uPVC guttering and drainpipes.

Features and benefits

- High performance weathering with Q-Lon weatherseal.
- Available in a variety of foiled finishes, both woodgrain and solid colours.
- Range of handle colours to complement the finish of your windows.
- Wide range of design options.

Experience guaranteed

We have fitted hundreds of porches in Croydon and the surrounding area, so you are guaranteed an efficient and professional service every time.

Conservatories

- the brighter way to extend your home

Most of us would love more space and light in our homes – and there's no better way than a quality conservatory.

Conservatories offer more benefits than you might think. They don't just provide lots of extra room – our insulation means your new conservatory will retain heat in the winter, and won't be too hot in the summer. So it's a comfortable space for you to enjoy all year round.

With a variety of styles to choose from – ranging from contemporary to more classic designs – you're sure to find just the right way to bring the garden into your home...and your home into the garden!

The changing face of conservatories

Forget everything you think you already know. Our advanced conservatory technology and materials change everything. Prepare to be inspired...

Want a room you can genuinely use all year round – through the hottest summer or the coldest winter? Set your mind on creating something really different? Facing a challenging or unusual footprint to create your new space? Keen to exploit the lifetime savings available from thermally efficient glass? Look no further.

From innovative roofline pelmets, to distinctive moulded architraves and solid in-fills, to soaring engineering with glass, the ranges in this brochure redefine what a conservatory can be.

Through our five distinctive conservatory pathways – each with unparalleled possibilities for customisation - create a stylish, truly individual structure that precisely meets your needs.

Classic

Dwarf walls and traditional perimeter glazing. The versatile, affordable solution for any home.

Classic Plus

Take a Classic Conservatory to the next level. Explore full-height walls and bespoke roof designs.

Loggia

Bring in solid in-fill panels, feature surrounds, and architraves to create a classic Italian theme.

Glass Extension

Minimalist, contemporary, spacious and light. Be adventurous with bespoke construction and glazing.

Orangery

Renaissance grandeur, recreated for you. Beautiful detailing, high, ornate glazed roofs and full-height walls.

Choose your shape and style

Our five conservatory pathways are just the start. Once you've selected the broad look you're after, the style and shape options bring the detail to life. From classic traditional styles like Victorian and Georgian to cutting-edge constructions like Glass Extension, you have complete control of the fine detail.

Style options

Once you have a conservatory pathway in mind, it's time to think about the style and shape.

Victorian

A popular style distinguished by a faceted front, giving a curved appearance. A particular favourite with period properties, however it's clean lines make this a winner on any type of home.

Georgian

A flat-fronted style that offers excellent use of floor space due to the square or rectangular internal shape. Its sloping roof and contemporary style is suited to the majority of properties.

Gable

A gable-fronted conservatory adds a sense of grandeur to any home. Featuring the same rectangular floor space as a Georgian, a gable offers excellent use of internal space.

Lean-To

For properties with little room under the eaves or for those homeowners that prefer a clean simple look, a Lean-To conservatory is the ideal choice. The roof pitch can be varied offering versatility and flexibility.

Lantern

The 'original' conservatory style offering a feel of drama and grandeur. Distinguished by the two-tiered feature roof, the height within a Lantern adds an extra dimension to the feeling of light and space.

Conservatory

Shape options

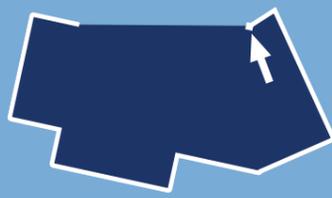

T-Shape

A combination style distinguished by a central projection that can either be a Victorian, Gable or Georgian. Offers a large and versatile floor space, an impressive addition to any home.

P-Shape

A P-Shape can combine a Lean-To and Victorian to create a versatile and visually stunning open space. This style is better suited to larger properties, giving an impressive result.

Custom

Although the shapes and designs shown are all bespoke, you may have your own 'one-off', exceptional or unique idea. The doors, windows and roof systems in this brochure combined with our expertise should allow you to achieve that dream.

Classic

Timeless and stylish. The key to the Classic is practical simplicity. With a timeless appearance and infinitely variable footprint, door and window configuration, the Classic suits properties large and small, old and new.

Personalise your conservatory

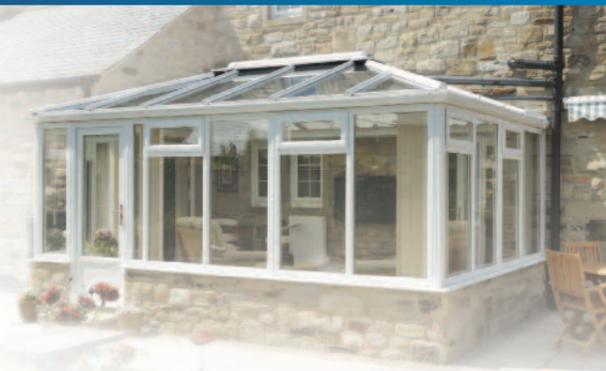

Tailor any conservatory to your needs with our range of doors and windows. See 'Personalise your Conservatory' page.

- Bi-fold doors.
- Patio doors.
- Double and single doors.
- Casement, vertical sliders and tilt and turn windows.

Optional extras

(see 'Personalise your Conservatory' page)
Select from our great value options. For example...

- Aluminium cornice.
- Aluminium cresting detailing.
- Roof vents.
- Aluminium top caps.
- Tie bars.
- Utopia solid roof.
- Glazing upgrades.
- Loggia sidewalls (see Loggia page).

Georgian	<input type="radio"/>	T-Shape	<input type="radio"/>
Gable	<input type="radio"/>	Custom	<input type="radio"/>
Lean-To	<input type="radio"/>		
Lantern	<input type="radio"/>		

Classic Plus

Classic Plus takes the Classic Conservatory to the next level.

An ingenious perimeter roof pelmet accommodates downlighters, providing a focal anchor around the entire perimeter of the conservatory. The system can also accommodate brick columns and dwarf walls. To enhance the roof space, adding tie bars can create the appearance of a traditional Orangery – at a fraction of the cost. What’s more, the Classic Plus roof is available to upgrade an existing conservatory. Most conservatory types are suitable, and the upgrade transforms an existing structure with minimum disruption and cost. Ask your advisor for details.

Personalise your conservatory

Tailor any conservatory to your needs with our range of doors and windows. See ‘Personalise your Conservatory’ page.

- Bi-fold doors.
- Patio doors.
- Double and single doors.
- Casement, vertical sliders and tilt and turn windows.

Loggia

Loggia provides a contemporary Italian take on your new conservatory.

The Loggia wall system provides detailed, aluminium in-fill panels coupled with dwarf wall panels. The effect is distinctly European, with the option of coloured panel areas further uniting the structure.

The walling system allows the incorporation of stylish fully integrated radiators, creating a crisp, clean uncluttered interior. The range of roofing options includes the Classic Plus pelmet system.

Orangery

For Centuries seen as the ultimate conservatory structure for a home, today's Orangery system will not disappoint.

Celebrating the scale of larger spaces, the ornate roofing detail in Orangery is a triumph. Once again, the pelmet system offers the ability to feature sophisticated perimeter lighting, and custom tailoring can realise shapes suitable for most plots.

Personalise your conservatory

Why shouldn't your conservatory reflect...you?
We've hundreds of ways to make your new space your own.

Door and window options

Casement window

Vertical slider window

Tilt and turn window

Double or single door

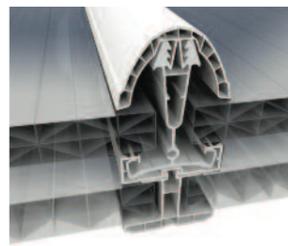

Patio door

Bi-fold door

Aluminium top cap - add the finishing touch with a colour co-ordinated top cap.

Utopia roof - exceptional thermal efficiency. Compatible with most conservatories.

Lighting - integrated downlighting in the roof ridge space and pelmet surround.

Opening vents - keep cool with manual or electrically operated roof vents.

Aluminium Cornice - enhance the aesthetic of any conservatory perimeter.

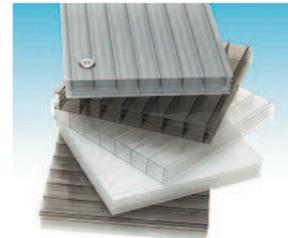

Tie bars - create the classic Orangery roof space with ornate, non-structural tie bars.

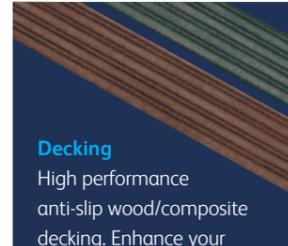

Glass units - reduce solar gain in summer & minimise heat loss in winter with treated glass.

Aluminium enhanced crestring suite - add the finishing touch.

Polycarbonate glazing - choice of colours and performance characteristics.

Decking
High performance anti-slip wood/composite decking. Enhance your living experience with our natural-look range.

Construction process

It's the detail that counts. Make your mark with our design options - creating your own individual style.

1 Preparing the groundwork and foundations

2 Constructing the dwarf wall and laying concrete

3 Laying down flooring and putting up framework

4 Construction of roof structure

5 Conservatory taking shape, installing windows and doors

6 Installing the roof and panels

7 Screeding and finishing the floor surface

8 Installing finishing touches

Conservatories that are comfortable places
to relax and enjoy all year round

Fascias & Soffits

- a better way to protect your home

Roofline products are just as important as your double glazing. Not only keeping the look of your home presentable and smart but safe from rotting rafter ends, damp and leaking gutters, nesting and structural damage.

We provide total removal where possible of existing soffits, fascias, barge boards, guttering and downpipes whilst also replacing waterproof membrane, rotten rafter ends and adding much needed ventilation into the eaves space. The general flow and water collection is often much improved.

Our soffits and fascias use the Swish product to ensure quality and performance. All products are non-lead formulation and complies with EEC and PVC industry guidance.

Features and benefits

- 10 year product guarantee on white and 10 years on coloured.
- BBA and BSI certification (kitemarked).
- Manufactured to ISO 14001 environmental management standards.

Fascia and Bargeboards

Swish Jumbo boards are strong, load bearing profiles. These boards are secured directly to rafter foot and fully support the weight of the eaves tiles and rainwater system.

Available in a wide range of sizes and finishes and also available in vented or unvented forms.

Through Fascia Ventilation

Our range of ventilated soffit boards provides the equivalent of a 10mm or 25mm air path as required. Strip ventilators allow additional or alternative ventilation to the roof void.

These are designed to fit all our range of soffits configurations.

Dentils

Decorative Dentil mouldings add elegance to the eaves of any property, creating individual architectural detailing.

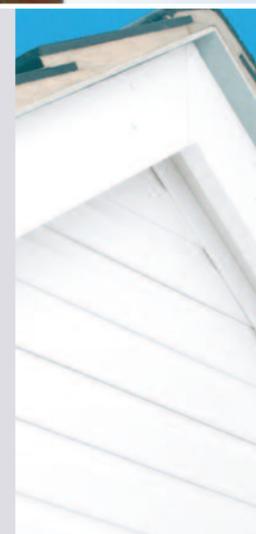

The range includes a choice of 4 sizes and differing designs.

Cladding

SystemCellular PVC cladding can significantly improve thermal properties of a building and provides an excellent low maintenance alternative to timber.

The Swish cladding system offers excellent colourfastness and considerable design choice.

Windows

Casement

Casement windows consist of outward opening sashes and fixed lights. This most common product is available in a multitude of styles and various finishes. Sashes can open as side hung or top hung to suit application.

Tilt & Turn

Tilt & Turn windows consist of opening in sashes, which can be operated in two ways. Turn handle 90° to tilt top inwards with restrictors, turning handle a further 90° to open fully inwards, hinged on the side for access and cleaning. Available in a multitude of styles and finishes.

Vertical sliders

Our Vertical Slider combines traditional design with modern technology, available with a range of Georgian bars to create the required look. Both sashes slide vertically to open. They can also be tilted inwards for ease of cleaning.

Bow windows

Our Bow windows offer you the versatility of creating the illusion of space and depth by allowing more light into your home without the need for additional building work.

Bay windows

Bay windows retain the traditional look of your home creating space, character and allowing light to flood your room.

Doors

Front doors

Panel doors are of PVC construction, combining versatility in design with modern locking technology. Available to open inwards or outwards. A variety of styles are available which includes side light options. A variety of panel styles are also available which include many glass types. Further more various solid colour and woodgrain finishes are available.

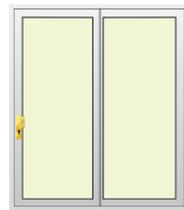

Composite doors

Combining the traditional look of timber with modern high performance materials to produce a range of traditional door styles in a variety of solid and wood effect finishes.

French doors

French doors are of PVC construction, combining versatility in design with modern locking technology. Available to open inwards or outwards. A variety of styles are available which can include midrails. French doors can also be designed with side panels to span larger openings.

Patio doors

In-line PVC patio doors are ideal when opening area is at a premium as the sashes do not encroach into the surrounding space. Available in 2, 3 and 4 pane options, patio doors can even be supplied with a midrail to include a letterplate if required.

Bi-Fold doors

Designed to fully maximise any opening space, bi-fold doors are available from 2 to 6 panes in a variety of opening sequences to suit your needs. Larger styles can incorporate single or even double opening doors for day to day practical use.

We are committed to providing our customers with the best quality windows and door. To achieve this goal we have devoted time, effort and expense into obtaining all the relevant standards and accreditations the glazing industry has to offer.

Why choose Albion Windows?

Still need more convincing?

Here are some of the advantages of choosing Albion Windows to fit your new PVCu Windows, Doors and Conservatories.

Albion Window Company have now been established for over 32 years and have a team of dedicated staff who are here to assist you throughout your new home improvement purchase. All customers of Albion windows can expect a pressure free, no obligation quotation, 10 Year Written Guarantee and full after sales and back-up service for that continued peace of mind.

Unrivalled quality and excellent communication

Our double glazing complies with British Standards BS7412 and BS7950 strict standard certification on security for White PVCu Casement Windows ensuring the highest standards of manufacture. Additionally, all of our installations comply with local authority building control systems in Croydon.

As FENSA members you have reassurance that all installations are carried out to a high standard. As members of the GGFI (Glass and Glazing Federation Insurance), Albion Windows issue all customers with an IBG (Insurance Backed Guarantee) as recommended by FENSA. So giving all Albion Windows customers that total peace of mind.

Our fitters

We will take care of everything from base building and brickwork through to door fitting, windows, decorative panels and roof. We will match your existing brickwork and finish with uPVC guttering and drainpipes. We have fitted hundreds of porches in Croydon and the surrounding area, so you are guaranteed an efficient and professional service every time.

Peace of mind with our 10 Year Guarantee

All Albion products come with a comprehensive 10 year guarantee, which covers all parts and labour. These guarantees can also be insurance backed through the GGFI, giving the customer complete peace of mind.

The benefits of choosing Albion Windows

- More confidence when buying - no high pressure sales techniques.
- More choice of window styles and designs.
- More quality - all work is done by our own craftsmen.
- More comprehensive guarantee - a full ten years; undertaken by the GGFI.
- More peace of mind - our products are maintenance free and conform to Part L.
- Trading as a family business for over 30 years and understand our customers' needs.
- We also install custom made conservatories to suit every home, in any style.

Flexible Finance

Helping you spread the cost of your new windows and doors.

We have great finance packages and options, provided in partnership with Barclays. We are able to offer you 3 different finance options, each one providing you a great way to fund your purchase. We have outlined them below, but for further information go to our website or call us to discuss:

Flexible monthly repayments
 – Representative Circa APR 9.9%
 With our flexible monthly repayment plan you only require a 10% deposit and can choose to pay between 12 and 60 months. Interest is calculated daily and added monthly. Additional payments can be made at any time to reduce your total amount payable and duration.

3 Month Deferred Bank Buster
 – Representative APR 4.9%
 With a minimum deposit of 25% you can pay the outstanding balance and exit fee during the first 3 months with no interest. If not settled within that period then you will begin 120 monthly repayments at representative APR of 4.9%. You also benefit from the extra protection under The Consumer Credit Act 1974. Additional payments can be made at any time to reduce your total amount payable and duration.

Interest Free Credit
 – Representative APR 0.00%
 Simply your purchase price less the minimum deposit of 25% and divide the outstanding balance by 12 equal payments. No interest or fees charged and you also benefit from the extra protection under The Consumer Credit Act 1974.

NB. All finance options are subject to loan approval.
